HIGHLIGHTS

The 1979-80 data indicate:

- an increase of 0.7 percent in the total number of professional personnel from 129,081 in 1978-79 to 129,927.
- an increase of 6.3 percent in the average salary of all professional personnel from $16,208 in 1978-79 to $17,237.
- that the average salary of classroom teachers increased 6.5 percent from $15,513 in 1978-79 to $16,517.
- that 50.6 percent of the professional personnel held the bachelor's degree as the highest degree attained.
- that 28.0 percent of the professional personnel had six to ten years of service.
- that for various reasons 8,080 professional personnel did not return to Pennsylvania public schools at the start of the 1979-80 school year.

FOREWORD

The series of publications entitled Our Schools Today is designed to provide statistical data and trends relating to basic education in the Commonwealth of Pennsylvania.

The "Public School Professional Personnel Report" is Number 6 of Volume XIX in this series. Other issues in the series, published either annually or biennially, provide data on transportation of students, nonpublic elementary and secondary education, public school buildings, public elementary and secondary education and public school financial statistics.

Any inquiries relative to these publications, including suggestions for change, should be directed to the Division of Education Statistics, Bureau of Planning and Education Statistics, Department of Education, 333 Market Street, Harrisburg, PA 17126 (Phone 717-787-2644).

INTRODUCTION

This report contains data on salaried personnel only. Data for employees paid on a per diem basis, interns and exchange teachers, to cite a few examples, are not included. The reader should keep in mind that information presented by position or major teaching assignment deals with people rather than positions. If an employee worked in more than one position or teaching assignment, the person was counted only in the position or teaching assignment in which a majority of his or her time was spent. In cases where the time was divided equally between two or more assignments, the chief school administrator selected one assignment. In all of the tables, other than Table 16 which deals specifically with part-time employment, all data are for personnel employed on a full-time basis in the schools.

The characteristics of the professional employees described throughout this report are as follows:

1. Salary
2. Position classification
3. Years of experience
4. Level of education
5. Sex
6. Race
7. Percent of time employed
8. Major teaching assignment
9. Age
10. Certification

In addition, characteristics not described in this report because of space limitations, but available in the Division of Education Statistics, include the following:

1. Number of periods of teaching
2. Minor teaching assignments
3. Number of persons supervised
4. Years certificates have been used
5. Areas of certification

In many of the tables in this report two or more factors have been presented. This was done in an effort to assist the reader in understanding the relationship among those significant items. For example, Table 2 reports average salaries of $17,367 for male secondary teachers and $16,151 for female secondary teachers. However, since salaries are based, in part, on years of service, Table 2 shows also that the average years of experience for male secondary teachers was 13.92 as compared with the 11.45 years for female secondary teachers. Some figures in Table 2 may vary due to rounding.

Because of reporting difficulties and because salary contracts had not been settled at the time the reports were submitted, 1978-79 salaries or 1978-79 salaries with mandated increments were reported for all or a portion of the employees in the school districts of Bethel Park, Brentwood Borough, Chartiers-Houston, Claysburg-Kimmel, DuBois Area, Ferndale Area, Hanover Area, Laurel, Minersville Area, Sharon City, South Williamsport Area, Union City Area and Upper Merion Area; the area vocational-technical schools of Bradford County, Central Chester County, Mon Valley and Western.

In analyzing the data relative to level of education, it must be noted that the figures are not synonymous with years of higher education, but are codes used in the project. However, these averages can be used for comparative purposes. The codes upon which the averages are based are as follows:

0.0	No college
1.0	One year of college
2.0	Two years of college
3.0	Three years of college
4.0	Bachelor's degree
5.0	Bachelor's degree plus one year
6.0	Master's degree
7.0	Master's degree plus one year
8.0	Master's degree plus two years
9.0	Doctor's degree
10.0	Doctor's degree plus one year

Other than Table 18, which gives selected data by administrative unit, all of the tables of data included in this report are state summaries. Additional aggregate data are available in the Division of Education Statistics.

It is hoped that this report will serve to provide useful feedback information to all school administrators in Pennsylvania for assistance in education planning and decision making.

Source: The information necessary to update the 1978-79 Professional Personnel Record, Form DEAS-614, was obtained on the Professional Personnel Record -- Change Report, 1979-80, Form DEAS-615; the Professional Personnel Record -- New Employee Report, 1979-80, Form DEAS-616; tapes and punched cards.

PUBLIC SCHOOL PROFESSIONAL PERSONNEL REPORT

Data on file in the Department of Education indicate that 129,927 full-time personnel were employed in professional positions in the public schools of Pennsylvania at the beginning of the 1979-80 school year. This was a 4.3 percent increase over the 124,606 employed in 1970-71. During this same 10-year period the public school enrollment showed a 16.7 percent decrease, falling from 2,363,817 in 1970-71 to 1,968,801 in 1979-80.1/ The staff per 1,000 enrollment rose from 52.7 in 1970-71 to 64.0 in 1979-80, while the pupil-teacher ratio declined from approximately 22:1 to 18:1 over the same period.2/

Of the total staff, 6,481 were classified as administrative or supervisory personnel, 111,615 were classified as classroom teachers, 9,912 were coordinate services personnel and the position classifications of 1,919 were unknown. The percent each group is of the total staff is 5.0, 85.9, 7.6 and 1.5, respectively. These percents are identical to those of the previous year and have varied very little over recent years as evidenced by the fact that the 85.9 percent for classroom teachers is only a 1.4 percent difference from the 87.3 percent figure in 1970-71.

As might be expected, the highest degree held by the major portion of the staff was the bachelor's degree with 50.6 percent of the staff holding such a degree. Closing in on this group is the 46.1 percent of the staff that held the master's degree as the highest degree attained. The percent of the staff that held the doctor's degree increased slightly to 1.1.

1/ Pennsylvania Department of Education, Our Schools Today, Vol. XIX, No. 1, (Harrisburg, 1980), p. 5.

2/ Pennsylvania Department of Education, Projections: Selected Educational Statistics for Pennsylvania to 1988-89. (Harrisburg, 1979), p. 28.

The average years of service for all personnel was 12.61 years. This is a slight increase over the 12.31 average years of service reported the preceding year. Approximately one-half of the employees had 10 or fewer years of educational experience and 1 out of 12 had more than 25 years of service. A large percentage of employees, 28.0 percent, had from 6 to 10 years of service.

The average salary of the total professional staff was $17,237, an increase of 6.3 percent over the 1978-79 figure of $16,208. The average salary of classroom teachers rose 6.5 percent from $15,513 in 1978-79 to $16,517 in 1979-80. Since salaries of certain administrators are based on the number of teachers supervised in addition to the level of education and years of service, additional salary data are presented for these administrators in Tables 11 through 15.

Table 18 gives the averages of selected characteristics for each administrative unit. The intermediate unit offices are listed first, followed by the administrative units in county order, each listed alphabetically. Also shown is the rank of each administrative unit among the 598 administrative units in the Commonwealth.

Retirement was the reason given by 23.5 percent of the 7,779 personnel who left the education profession permanently. In addition to this group of individuals, there were 301 employees who transferred to out-of-state school systems for a total of 8,080 employees who did not return to the Pennsylvania classroom at the start of the 1979-80 school year. Included in this figure are 545 who were furloughed because of decreases in enrollment and cuts in programs. An additional 844 persons transferred to other Pennsylvania school systems.

HIGHLIGHTS

The 1978-79 public school financial statistics indicate that:

- the total general fund revenue of school districts increased for the year by \$209,963,983 or 5.3 percent, to \$4,177,169,076, a 4.2 percent decline from the increase of the previous year.

- of the total taxes collected, the real estate taxes accounted for \$1,651,083,053 or 75.8 percent of the \$2,178,591,730 taxes collected for the fiscal year.

- The median equalized millage for reimbursement under the basic instructional subsidy as amended by Act 59 (August, 1977) was computed to be 22.8 mills.

- the Act 511 taxes continued their growth to \$322,120,739 or 14.8 percent of total taxes, a 0.4 percent increase over 1977-78.

- the collection of delinquent taxes continued to increase for the fourth consecutive year, accounting for \$82,810,618 for an increase of 13.6 percent in 1978-79 and 54.3 percent over the four-year growth period.

- an increase of \$207,599,859 or 5.4 percent brought the total general fund expenditure to \$4,064,834,441, somewhat less (0.6 percent) than the increase of the preceding year.

- the only functions showing any appreciable increase as a percent of total expenditures were operation and maintenance of plant and fixed charges, with increases of 0.4 percent and 0.5 percent respectively.

- the expenditure for instruction (\$2,131,097,911), consistently the largest single expenditure for public basic education, declined as a percent of total expenditures for the fourth consecutive year, from 54.0 percent in 1975-76 to 52.4 percent in 1978-79.

- the median general fund current and total expenditure per average daily membership was \$1,587.44 and \$1,807.20 respectively, while the state average was \$1,790.20 and \$2,013.11.

FOREWORD

The series of publications entitled Our Schools Today is designed to provide statistical data and trends relating to basic education in the Commonwealth of Pennsylvania.

The "Public School Financial Statistics Report" is Number 7 of Volume XIX in this series. Other issues in the series, published either annually or biennially, provide data on public school elementary and secondary education, transportation of students, nonpublic elementary and secondary education, public school buildings, and public school professional personnel.

Any inquiries relative to these publications, including suggestions for change, should be directed to the Division of Education Statistics, Bureau of Planning and Education Statistics, Department of Education, 333 Market Street, Harrisburg, PA 17126 (Phone 717-787-2644).

INTRODUCTION

The "Public School Financial Statistics Report" Volume XIX, Number 7, is the current financial publication of the Our Schools Today series. Herein is presented detailed information concerning general fund revenue by source of funds and tax collection data of all public school districts, general fund expenditures of school districts and area vocational-technical schools and per pupil expenditures (per average daily membership - ADM) for all school districts operating a complete program of kindergarten and/or grades one through twelve in the Commonwealth of Pennsylvania for the 1978-79 school year. Since the financing of public basic education in Pennsylvania is based upon reimbursement for prior year expenditures, all financial data gathered and published in this volume are one year later than that of the other publications of this series. The data presented in this volume are actual as reported by the individual reporting entities, shown by the use of tables, graphs and interpretive narrative and further supported by trend tables for the past decade.

Sources: Annual Financial Report (DECO 500) 1978-79, Annual Attendance Report (DEBE 482) 1978-79 and the 31st Annual Certification of the Pennsylvania State Tax Equalization Board, June 30, 1979.

PART I

GENERAL FUND REVENUE

Presented in Table 1 is the "General Fund Revenue of School Districts by Source of Funds." This table shows both the dollar amounts and percent of total general fund revenue by source - local, state and federal - of all the public school districts in the Commonwealth. The largest source of general fund revenue for public basic education in 1978-79 was still generated from local sources (55.1 percent) with local taxes providing the greatest portion ($2,178,591,730), of which the real estate taxes comprised 75.8 percent of this amount. Revenue from local sources increased $165,654,222 or 7.8 percent over the previous year with a corresponding increase in real estate taxes of 5.1 percent. The apparently large increase in "Other Revenue" from local sources can be attributed to a 66.0 percent increase in investment earnings, an 82.6 percent increase in the sale of property and equipment and a 56.1 percent increase in unidentifiable miscellaneous revenue. Some of which was again, as last year, due to refunding or refinancing of bond issues of building authorities and school districts and returning the unallocated receipts to the general fund as miscellaneous revenue. The revenue from state sources at $1,644,117,115 represented 39.3 percent of the total general fund revenue, an increase of $37,851,945 or 2.4 percent over fiscal 1978. The remaining 5.6 percent of general fund revenue was from federal sources and amounted to $232,784,107 for the year, an increase of $6,457,816 or 2.9 percent, but was 4.0 percent less than the increase of 1977-78, declining for the second consecutive year.

The revenue reported here is general fund revenue of school districts only as reported on the Annual Financial Report (DECO 500) filed with the Office of the Comptroller of the Pennsylvania Department of Education and will, therefore, differ from state appropriations paid or the total revenue picture for basic education in the Commonwealth.

PART II

SCHOOL DISTRICT TAXES

Tax data for the 505 school districts in the Commonwealth are presented in Table 2. These data represent the actual tax collections of the school districts as reported to the Office of the Comptroller of the Pennsylvania Department of Education for the 1978-79 fiscal year. This will differ, somewhat, from the tax data published in A Measure of Local Effort, 1978-79[1/] in which budgeted data for 1978-79 and the most recent market value available at the time of publication (Projected 1978 M.V.) are used; while here, actual taxes and the 1978 market value are shown and used in arriving at the equalized mills figure.

The total school district taxes collected in fiscal 1979 amounted to $2,178,591,730. This was $121,188,718 or 5.9 percent greater than the previous year's collection, but 4.1 percent less than the increase for the prior year. The real estate taxes ($1,670,671,476, including the public utility realty tax) accounted for 76.7 percent of the total taxes collected. For this same period, the Act 511 taxes (levied under the Local Tax Enabling Act of 1965) produced $322,120,739 or 14.8 percent of the total. This figure was $26,754,607 or 9.1 percent over the previous year's collection. Of the Act 511 taxes, the wage and income tax ($196,894,825 or 9.0 of total taxes) remains the most productive, with the occupation and occupation privilege taxes ($54,796,340 or 2.5 percent of total taxes) continuing their steady growth. Philadelphia and Pittsburgh, refrained from levying Act 511 taxes, are authorized to levy special taxes[2/] which are similar and are therefore listed with the Act 511 taxes for statistical convenience. These taxes amounted to $83,014,343, an increase for 1978-79 of $176,398 or 0.2 percent.

Act 59, passed by the legislature in August 1977, incorporated the computation of equalized mills as a measure of school district effort into the formula for calculating the basic instructional subsidy. This computation, previously known as mills on market value, may be found in Table 2 with the high to low ranking.

PART III

GENERAL FUND EXPENDITURES

The general fund expenditure for all school districts, area vocational-technical schools and special schools for the 1978-79 school year are shown in Table 3. The total expenditures for this period were $4,064,834,441 of which $397,956,512 were for debt service and $48,009,167 for capital outlay. These two expenditures together comprised 11.0 percent of the total expenditures, down 0.3 percent from the previous year. The $207,599,859 or 5.4 percent increase in total expenditures was also 0.9 percent less than the percent of increase for the 1977-78 school year. As a percent of total expenditures, the expenditure for administration remained constant at 3.4 percent for the third consecutive year. The functions of pupil personnel services, pupil transportation, operation and maintenance of plant, fixed charges and community services showed some percentage increases, led by fixed charges and operation and maintenance of plant with increases of 0.5 percent and 0.4 percent respectively. Instruction and health services experienced percentage decreases of 0.9 percent and 0.1 percent respectively. All other functions as a percent of total expenditures remained constant.

In Table 4, general fund expenditures of school districts are shown as an expenditure per average daily membership (ADM). The expenditures of Table 3 are divided by the ADMs from the "Annual Attendance Report" (DEBE-482) for 1978-79 to arrive at a per ADM figure for both current and total expenditures and for selected functions. However, it is necessary to caution those who wish to use Table 4 for comparative purposes that some districts spend more than others on programs and services for which there is no per pupil accounting in average daily membership. If a district's expenditure per pupil is disproportionately high, it does not necessarily imply a high cost to the local tax payer since some programs are financed entirely or in part by state or federal funds. In the case of Table 4, also, the expenditure for transportation is for pupils enrolled and not for pupils transported.

The median expenditure per ADM for current expenditures was $1,587.44 and for total expenditures $1,807.20. The range was from $1,163.80 to $2,885.60 for current expenditures and from $1,233.87 to $3,358.13 for total expenditures, with state averages of $1,790.20 and $2,013.11 respectively. The cost per ADM for selected functions showed increases as follows: administration, up 10.8 percent; instruction, up 7.6 percent; pupil personnel services, up 14.8 percent; operation and maintenance of plant, up 12.3 percent; and fixed charges, up 14.2 percent.
